EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

2. This application is in condition for allowance except for the presence of claims 1-4 drawn to an invention non-elected without traverse. Accordingly, claims 1-4 have been cancelled. MPEP 821.02.

3. The title has been changed to the following: - - A method for making a ventless tire mold - -.

4. The following is an examiner's statement of reasons for allowance:

Applicant's arguments in the appeal brief filed on 6/15/04 are persuasive in overcoming the prior art rejections.

It is agreed that the ribs 12a of Galli et al. do not form sipes as claimed. There is no suggestion in Galli et al. that the ribs are in fact sipes. Furthermore, claim 5 recites "installing sipes into the models". Galli et al. do not teach an installing step of installing sipes into the models. In the context of tire molds, a sipe is a metal strip, rib or the like used to form the sipe in a tire as applicant discussed in a previous response (page 3, lines 9-11 of the response filed 12/10/02).

Therefore, the prior art does not teach or suggest a method for making a ventless tire mold including developing three dimensional models of tire tread portions, installing sipes into

the models, generating foundry castings from the models having the sipes installed, and preparing individual pitch profiles from said foundry castings, in combination with all of the other claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc Jimenez whose telephone number is (703) 306-5965. The examiner can normally be reached on Monday-Friday between 5:30 a.m.-2:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on (703) 308-1789. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
